

# OPTIPOP R Refillable Cassette Cleaning Tools

The OPTIPOP R is a cassette style fiber optic connector cleaner system that can be refilled for reducing cleaning costs. It uses a densely woven micro-fiber cleaning fabric to remove harmful contaminants off of the ferrule end face. The OPTIPOP R cassette cleaning tool will accommodate all single fiber connections. US Conec has versions of the OPTIPOP R cassette cleaning tools that are designed specially for cleaning multi-fiber connector systems including the MTP® Brand Connectors, standard MPO and MTRJ connectors for both singlemode and multimode connectors. The customized OPTIPOP R cassette cleaning tool will accommodate the alignment guide pins on male MT ferrules. US Conec has a version of the OPTIPOP R cassette cleaning tool that is ideal for field use at FTTX work sites. This version accommodates the OptiTap™ connector housing making it ideal for technicians that need to clean OptiTap™ plug connectors on drop cables.

The anti-static cloth material produces a pristine fiber tip and minimizes contaminant attraction. The cleaning fabric is pre-washed and produces less than 70 pcs/CFM of particles > 1mm in size, making this system excellent for use in any production environment including clean rooms.

## Features

- Replacement reels are easy to install and reduce the cost per cleaning
- 400+ Cleanings
- Eliminates electrostatic charge
- The washed, ultra clean micro-fiber cloth captures debris and other contamination
- The cloth is robust, it does not fray or leave any fibrous materials behind
- The most cost effective high-end cleaning solution available

## Applications

- FTTX work sites installing OptiTap™ drop cables
- Data center installation and preventative maintenance
- Central office and head end new equipment installations and preventative maintenance
- Production facilities that terminate fiber optic cable assemblies
- Testing and measuring laboratories using optoelectronic equipment
- Any application that uses unmated fiber optic connectors

| Part Number                       | Description  |
|-----------------------------------|--|
| 6227 (labeled)<br>6338 (unmarked) | OPTIPOP R Cassette Cleaning Tool - Single Slot. <i>For cleaning all single fiber and female MT ferrule connectors</i><br>NTT-AT: ATC-RE-01 |
| 6226 (labeled)<br>6339 (unmarked) | OPTIPOP R Cassette Cleaning Tool - MPO Male. <i>For cleaning male (with guide pins) MPO connectors</i><br>NTT-AT: ATC-RE-03                |
| 6230 (labeled)<br>6437 (unmarked) | OPTIPOP R Cassette Cleaning Tool - Two Slot. <i>For cleaning LC duplex connectors</i><br>NTT-AT: ATC-RE-02                                 |
| 8057 (unmarked)                   | OPTIPOP R Cassette Cleaning Tool - FTTX. <i>For cleaning OptiTap™ plug connectors on FTTX drop cables</i><br>NTT-AT: ATC-RE-03W            |
| 6228 (labeled)<br>6340 (unmarked) | OPTIPOP R Cassette Cleaning Tool - MTRJ Male. <i>For cleaning male (with guide pins) MTRJ connectors</i><br>NTT-AT: ATC-RE-04              |
| 6232                              | OPTIPOP Refill 6 Pack. <i>Replacement reels for all OPTIPOP R cassettes</i><br>NTT-AT: ATC-RS-01   |
